# Philips connected retail **lighting system**

Philips pilots new system that uses intelligent LED in-store lighting to communicate with shoppers smartphones to deliver targeted offers and information based on their location

**David has decided to cook a Mexican meal for his friends this evening.**

**1.**

He chooses guacamole in the supermarket app he downloaded. It suggests a recipe for fresh guacamole that he accepts

**5.**

The light fixture communicates his location and the app plots a route to the churros

**2.**

The light fixture above David sends his location to his smartphone and the app plots a route to the ingredients

**3.**

Spotting David's location at the fresh vegetables section, the light fixture prompts the app to offer him 50% off on avocados

**4.**

David then receives a suggestion for a dessert of Mexican "churros". He opts for a readymade option

**PHILIPS**
